MEMORANDUM FOR MR. [REDACTED]

25X1A

Subject: Headquarters and [REDACTED]

1. Forwarded herewith are the Tort Claim Regs that we sent out to the Regulations Control Staff last fall, together with a sterilized version [REDACTED]

2. As I told you this morning, the Headquarters Reg was sent out for coordination by the Regulations Control Staff but was returned to them by DD/P with a notation to the effect that a corresponding [REDACTED] regulation would be required before DD/P would effect coordination on the Headquarters Reg. After some delay the enclosed copy, which is the final edited copy which belongs to the Regulations Control Staff and should be returned to them, was forwarded back to me for preparation [REDACTED]

3. Since the Tort Claims Act is applicable in territories and possessions, it is necessary that the [REDACTED] include the generalized material contained in the present draft. I believe that the sterilization is fairly complete with the possible exception of the use of the word "law" in line 2, paragraph 1. I have deleted the extraneous material contained in the Headquarters Regulation that would not be applicable to field stations whether located in territories and possessions or not.

4. Since many items contained in both the Headquarters and [REDACTED] Regulations may well be subject to strong comment by the various operating components, it is my recommendation that the [REDACTED] Regulation go forward substantially as is in order that the operating components may be allowed a complete shot at the Tort Claims procedures as presently visualized by this office.

5. The attached Headquarters and draft [REDACTED] were expected back in the Regulations Control Staff on 26 January 1956.
